Pre-Bid Queries_InfraSCom

S. No.	Point No. of Detailed Technical Specifications	Tender Specification	Query/ Suggestion	Reply
1.	**A.2: 75-Inch Professional Display** Point No. 11 - Speaker	Inbuilt Two speakers of minimum 15 Watt each	Standard speakers available are 10W × 2. Kindly confirm if acceptable.	**Accepted** and modified accordingly. Please refer Modified Bid Document.
2.	**A.2 65-Inch Professional Display** Point No. 15 - System Android version	Android 13 or better	Android based OS	**Accepted** and modified accordingly
3.	**B.1 Video Conferencing Camera with ultra HD AI Auto Tracking** Point No. 1 - Sensor	1/1.8" CMOS Sensor or larger	PTZ 20x Optical Camera Standerd Sensor is 1/2.8", CMOS Sensor, Not a 1/1.8" CMOS	**No Changes**
	Point No. 3 - Scanning Mode	Progressive	Clarification Requested	This is as per the requirement

S. No.	Point No. of Detailed Technical Specifications	Tender Specification	Query/ Suggestion	Reply
1.	**A-DISPLAY SYSTEM**			
	A.6 8x8 HDMI Matrix Switcher (seamless)	1. Inputs: 8 HDMI connectors or more 4K @ 60Hz	Request to please modify as below as current parameter are of outdated resolution. 1. Inputs 8 HDMI connectors or more 4096x2160 @60 4:4:4	**Accepted** and modified accordingly.
		2. Outputs: 8 HDMI connectors or more 4K @ 60Hz		
		5. Output Resolutions Upto 4K @ 60Hz, 4:4:4 color or better	2. Outputs 8 HDMI connectors or more 4096x2160 @60 4:4:4	Please refer Modified Bid Document.
		6. Control Functionality Matrix Switching, RS-232 and LAN	5. Output Resolutions 4096x2160 @60 4:4:4 color or better Request to please modify as below, as current latest hardware ships with LAN ports. 6. Control Functionality Matrix Switching, RS-232 or LAN	
			Request to please add "Device should have minimum 2x stereo line-level audio output, to de-embedded audio from any of the eight HDMI inputs" Although one will be used in the solution but 2x is minimum, which can be asked	**Accepted** and modified accordingly. Please refer Modified Bid Document.
			Request to please add "Network security parameters like Active Directory service authentication, 802.1X network access control, TLS, SSH and HTTPS, and need to be configured and shown during installation,"	**Accepted** and modified accordingly.

				Please refer Modified Bid Document.
			To ensure that only authorized personnel can login to the device and only secured device are on the AV network.	
	B.5 Room Controlling Device	5. Controlling port 3x 5 pin phoenix connector or more	Request to please confirm on the usage for these ports, as this is not clear, like other control ports mentioned in the specification.	**Removed**
			Request to please add "Network security parameters like Active Directory service authentication, 802.1X network access control, TLS, SSH and HTTPS, and need to be configured and shown during installation," To ensure that only authorized personnel can login to the device and only secured device are on the AV network.	**Accepted** and modified accordingly. Please refer Modified Bid Document.
			Request to please add, "Should be shipped with license to control the room from PC/Laptop using UI". Which can be used as a control interface from operators PC in the room.	**Accepted** and modified accordingly. Please refer Modified Bid Document.
		13. Integration: For better compatibility and smooth integration Room Controlling device, Power sequencer, Controller Screen should be from same OEM	Request to please modify as below, for broader participations. For better compatibility and smooth integration Room Controlling device, ~~Power sequencer~~, Controller Screen should be from same OEM. As generally accessories devices like power sequencer are controllable via protocols. And in the specification of power sequencer, it is already mentioned "Remote Power Control via TCP/IP" "Controlling Data Interface - Support standard RS232 data interface and open control protocol or LAN Port"	**Accepted** and modified accordingly. Please refer Modified Bid Document.
	B.6 Wall Mount Controller Screen		Request to please add "Network security parameters like Active Directory service authentication, 802.1X network	**Accepted** and modified accordingly.

			access control, TLS, SSH and HTTPS, and need to be configured and shown during installation," To ensure that only authorized personnel can login to the device and only secured device are on the AV network.	Please refer Modified Bid Document.
			Request to please add, "Touch panel must not have any inbuilt microphone, the Bluetooth communications, and Wi-Fi® network connectivity to comply with applications demanding extra privacy and security.	**No Change**
		10. Integration: For better compatibility and smooth integration Room Controlling device, Power sequencer, Controller Screen should be from same OEM.	Request to please modify as below, for broader participations. For better compatibility and smooth integration Room Controlling device, ~~Power sequencer~~, Controller Screen should be from same OEM. As generally accessories devices like power sequencer are controllable via protocols. And in the specification of power sequencer, it is already mentioned "Remote Power Control via TCP/IP" "Controlling Data Interface - Support standard RS232 data interface and open control protocol or LAN Port"	**Accepted** and modified accordingly. Please refer Modified Bid Document.
	B.7 8-Channel Power sequencer		Request to please confirm the usage of "B.7 8-Channel Power sequencer", request to please generalize the specification for broader participation.	**No change**
